

CVPASS

IDEA

In many regions submission of negative test results or any confirming antibodies certificates of COVID-19 are commonly required for visitors by receiving party.

[CVPASS.COM](https://www.cvpast.com) – is consolidated verification service for users (recovered from COVID-19) to confirm positive antibody medical tests.

- With a G index of more than (+10) - for a period of 90 days
- PCR method with a negative test - for a period of 4 days
- Confirmation of the fact of vaccination

Project decisions:

- Prompt confirmation of medical tests
- Provision with medical tests by certified laboratories
- Prevention of any fake-tests cases
- Unified verification mechanism
